

# PRESENTING THE MOST HYGIENIC & BEAUTIFUL KITCHEN SHUTTERS

The latest addition by:

  
**KEEP  
CALM  
AND  
KEEP  
THE  
KITCHEN CLEAN**

We understand that it is not fun to keep our kitchens clean. And considering the exceptional importance of hygienic living these days, selecting proper Kitchen Shutters for homes becomes an important task.

To maintain the cleanliness & also the aesthetics in the kitchens, we have introduced a range of innovative, durable and the most hygienic Kitchen Shutters.

With contemporary designs and an enduring color palette of over 20 colors & patterns, Shellcraft has been making many of your design aspirations come true for more than 16 years. Shellcraft being smooth, non-porous, thermo-formable and visually seamless solid surface, is indeed an ideal choice for many of the products.

Kitchen Shutters made from Shellcraft Solid Surface are 100% waterproof and non-porous. These Kitchen Shutters prevent bacteria growth, thereby helping the kitchens to maintain hygiene in today's demanding environment.

## SHELLCRAFT SOLID SURFACE, THE JOURNEY SO FAR

**16+**

**Years of  
experience**

**250+**

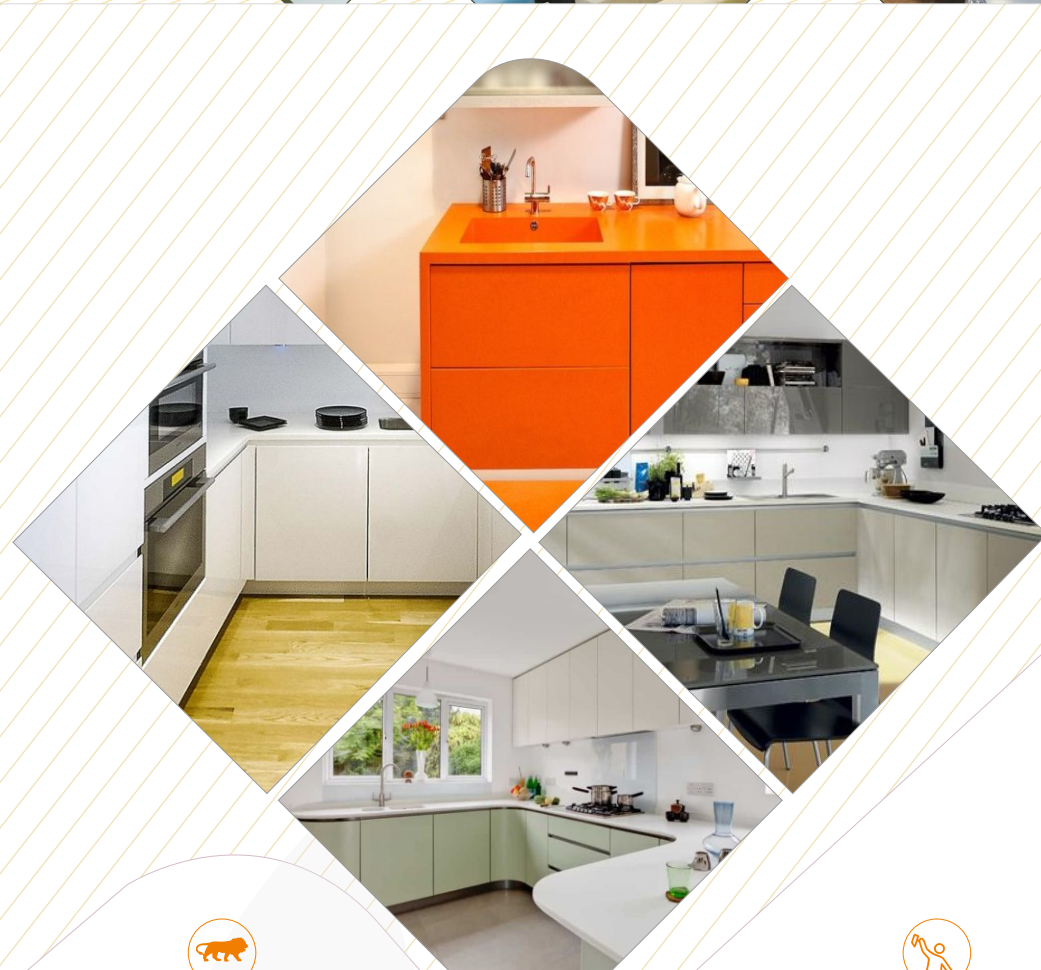

**Customers  
across India**

**500+**

**Installations  
across  
industries**

**8,000  
sq.ft.**

**Well equipped  
premises  
in Pune**

Shellcraft is PE-MMA based composite, made with 100% Indian high-performance polyester and modified acrylic resins with additives using open cell casting method

Self-fire extinguishing material

Available in over 300 colors\*  
(with chips/marble/ granite patterns etc.)

\*for customized large projects only

Fabricated with an innovative technique of Solid Surface Fabrication using our proprietary glue. The glue behaves similar to the sheet allowing it to expand & shrink freely without forming any cracks on the applied surface

Non-porous, leading to zero microbial growth on the surface, making it very hygienic

## STANDARD COLOR OPTIONS FOR SHUTTERS

#Before finalizing the color, it is advisable to refer the actual product samples
